

NICOLAS MOLDUCH

DEVELOPER

PROFILE

Rigorous, methodical, and organized, I have a strong knowledge of web development technologies including HTML, CSS, JavaScript, PHP, MySQL, and PostgreSQL, as well as React, Next.js, Python, and C#.

Curious and constantly improving, I now want to expand my skills in design, architecture, and advanced programming in order to move into software engineering.

I am able to work independently as well as comfortably in a team, and I know how to analyze problems methodically and propose solutions.
